

Electric Actuator Mounting Kits

Mounting Kits provide all the necessary hardware to mount Peaktronics actuator controls in a variety of commercially available actuators. Enhance any AC or DC actuator with high performance positioners, on/off controllers, timer functions, feedback signals, or Modbus. Add an ADM-100 and convert a 24VDC actuator to an enhanced 24VAC actuator.

A - includes gears/couplings for installing feedback potentiometer

B - mounts standard size controller (AMC-100/101, AMI-103/104, DHC-100/300/400, DMC-100, LRC-101, RCM-101, or PWR-102 Series)

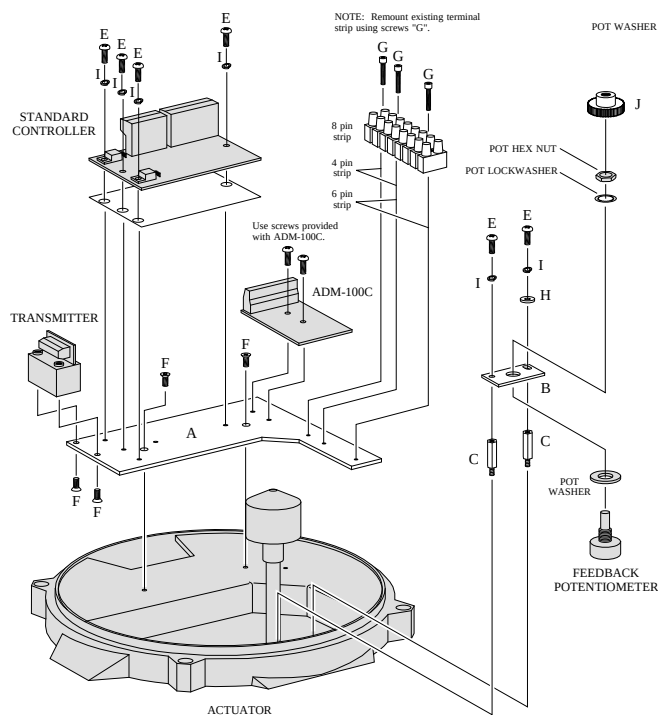

C - mounts miniature size controller (AMC-103, AST-100, DMC-101, or DST-100 Series)

D - mounts XMA Series transmitter

Electric Actuator Mounting Kits - *continued*

EXE-100

Mounting Kit Accessories

Mounting Kit Accessories provide hardware to mount Peaktronics actuator controls in external enclosures so that even the smallest of actuators can be equipped with advanced controls.

Model	Description	List
EXE-100	External Enclosure, NEMA 4 Mounts a controller (standard or miniature) and a transmitter.	\$ 120.75
SUB-100	External Enclosure Subpanel Mounts a controller (standard or miniature) and a transmitter in a Bud AN-1350 NEMA 4 enclosure.	\$ 31.25
EEF-100	External Enclosure Fitting Mounts external enclosure directly to a 1/2" NPT actuator port.	\$ 30.00
EEF-101	External Enclosure Fitting Mounts external enclosure directly to a 3/4" NPT actuator port.	\$ 33.50
